- The use shall not tend to change the character and established pattern of development of the area of the proposed use;
- The use shall be in harmony with the uses permitted by right under the Zone in question and shall not affect adversely the use of neighboring properties;
- The location and height of buildings, the location, nature, and height of walls and fences and the nature and extent of landscaping on the site shall be such that the use will not hinder or discourage the appropriate development and use of adjacent land and buildings or impair the value thereof;

- The use shall not adversely affect the health or safety of persons residing or working in the vicinity of the proposed use;
- The use shall not be detrimental to the public welfare or injurious to property or improvements in the vicinity; and,
- The use shall be in accordance with the purposes of the Zoning Ordinance and the Comprehensive Plan.

The property is a 1.34 acre site located at 236 Pipeline Road, Elizabethtown, KY, known as Lot 71 of Quail Hollow

Subdivision, Section 2, within the Kentucky 313 Corridor Planning Area, and is zoned Residential Estate (R-3). The PVA Map Number is 240-00-01-070. The property is owned by **MANUEL & LILIET RUIZ** and the applicant is **MIKE BELL**. Director King reviewed the application, the plans for the property, and presented exhibits into the record.

Mike Bell with MKB Construction, of 4825 South Dixie Highway, Glendale, KY provided testimony and answered questions from the board members and staff. Mr. Bell explained that they were almost able to contact the owner across the street, and that they had finally gotten the correct contact information for the owners power of attorney the day of the hearing. Mr. Bell also stated that the pipeline easement was very involved with the construction process and visited the site any time concrete was being poured.

Secretary Steck asked about the possibility of moving the right-of-way further away from the house. Director King explained that the property owners across the street would have to agree to give up a portion of their land to become right-of-way, be agreeable to survey work, and be willing to merge their multiple lots so that no lot is coming further out of compliance with the 10 acre minimum lot size within the R-3 Zone. Additionally, he explained that there may not be ample room to move the right-of-way due to the location of the pipeline easement.

The board members discussed the precedence set forth by another variance on pipeline road, which was 42' from the center of Pipeline Road. Planner I Goodman measured the structures on the aerial map and explained that the proposed house is 35' from the edge of the road while the approved barn was 28' from the edge of the road. The variance seemed smaller on paper because the road was not correctly built in the middle of the right-of-way.

Director King reiterated that the right-of-way must be reduced from 60' to 40' regardless, and that even if the board approves the variance, the property owners still need to obtain approval/signatures from the adjoining property owners for the right-of-way to be reduced as an agreed boundary line on the Amended Plat.

Director King also explained that as originally proposed, merging the two lots into a single lot that exceeded 3 acres required a 70' front building setback but that now a revised plat has been presented maintaining two lots so that the lots only require a 40' front building setback and therefor less of a variance. The applicant and the Board were in agreement that Lot 71A would be a non-buildable lot to not allow for even additional homes or structures on the private road.

Manuel Ruiz, of 236 Pipeline Road, Elizabethtown, KY, provided testimony and answered questions from the board members and staff. Mr. Ruiz explained that the situation has

Hardin County Board of Adjustment

Minutes: 5 March 2026

Page 5 of 6

been very frustrating and that he cannot continue to make two house payments per month.

No one else spoke in favor or in opposition of the proposal.

At 6:24 p.m. Hearing Officer Steck closed the hearing to public discussion.

Vice Chairman Youngblood made a motion to grant the Variance from the front building setback to allow for a house currently under construction to remain on site. He based the motion on the staff presentation and the testimony provided in the public hearing. He noted the pre-existing conditions of the private roadway development, referenced the Record Plat of Quail Hollow Subdivision, Section 2 from 1979, noted that the property is on a private, gravel, dead-end road, stated that the road was not built in the center of the right-of-way, noted the topography constraints, and stated that the proposal was not out of character for the area. He noted there are no safety concerns, that it will not adversely affect the public health, safety or welfare, will not alter the essential character of the general vicinity, will not cause a hazard or a nuisance to the public and will not allow an unreasonable circumvention of the requirements of this regulation and will satisfy the language of the KENTUCKY REVISED STATUTES (Section 100.243 and DGS 5-3 (B) (1) Findings necessary for granting variance) which is as follows:

- B. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

The Variance was approved with the following conditions:

1. To allow for a Variance from the front building setback to allow for the existing home to remain on site.
2. The "right-of-way" shall be reduced from 60' to 40' after agreement by all lot owners on the roadway in writing via an agreed boundary line on the amended record plat so that the home is outside the "right-of-way".
3. All future structures and/or additions must comply with building setbacks. No additions to the home shall be permitted or permits issued to rebuild unless they comply with building setbacks.
4. An Amended Record Plat shall substitute for the required Site Plan. The plat will maintain the two lots to allow for a 40' front building setback as opposed to a 70' if the lots were merged together and exceeded three (3) acres with neither lot getting

any smaller. The house will remain on Lot 70A and Lot 71A shall be a non-buildable lot.

5. A Certificate of Land Use Restrictions shall be recorded in the Office of the Hardin County Clerk.

Chairman Krausman provided the second. The motion passed 2-1 with Secretary Steck in opposition.

At 6:28 Chairman Krausman called for consideration and action on the fourth item on the agenda, the **Minutes for the meeting held on February 5, 2026**. Secretary Steck made a motion to accept the minutes as presented. Vice Chairman Youngblood provided the second. The motion passed unanimously.

Mr. Wilson stated that he also may inherit a car in the future that will be parked in the garage. Mr. Wilson explained that there will be no commercial activity on the lot.

No one else spoke in favor or in opposition of the proposal.

remodels, but now he does dirt work and new construction as well. His business has 9 employees.

No one else spoke in favor or in opposition of the proposal.

At 5:28 p.m. Hearing Officer Steck closed the hearing to public discussion.

Secretary Steck made a motion to grant the Variance from the 40' side building setback line to allow for the construction of a 1400 sq. ft. lean to. He based the motion on the staff presentation and the testimony provided in the public hearing. He stated that the adjoining property is currently under the same ownership. He noted there are no safety concerns, that it will not adversely affect the public health, safety or welfare, will not alter the essential character of the general vicinity, will not cause a hazard or a nuisance to the public and will not allow an unreasonable circumvention of the requirements of this regulation and will satisfy the language of the KENTUCKY REVISED STATUTES (Section 100.243 and DGS 5-3 (B) (1) Findings necessary for granting variance) which is as follows:

- C. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

The Variance was approved with the following conditions:

1. To allow for a Variance from the 40' side building setback (where commercial adjoins residential) to allow for the construction of a 1400 sq. ft. lean-to addition to the existing 60'x40' shop/office to be no closer than 21.7' off the property line.

the Kentucky 313 Corridor Planning Area, and is zoned Residential Estate (R-3). The PVA Map Number is 240-00-01-070. The property is owned by **MANUEL & LILIET RUIZ** and the applicant is **MIKE BELL**. Director King reviewed the application, the plans for the property, and presented exhibits into the record.

Mike Bell with MKB Construction, of 4825 South Dixie Highway, Glendale, KY provided testimony and answered questions from the board members and staff. Mr. Bell explained that he is the contractor for the project and he staked the house out. He explained that the original front setback was 40' from the front property line, and he measured from the road instead. Mr. Bell said that the surveyor called him with the bad news when they went to combine the lots. He stated that he is very ashamed of the mistake and genuinely does not know how he got the measurements so off. He explained that he is willing to do whatever it takes to fix the problem.

Chairman Krausman stated that he does not understand how a mistake of this size even happened, and that he is not willing to approve a 65' variance.

Secretary Steck asked if it were possible to move the road right-of-way. Director King discussed some options the owners may have, but that it would require collaboration with property owners across the street, and that their lots could not become any smaller due to the 10 acre minimum lot size within the R-3 Zone.

Chairman Krausman and Secretary Steck stated that they wanted to table the hearing until they could at least go look at the site once the snow melts.

Mr. Bell stated that he would get in contact with the property owners across the street and see if they would be willing to work with them on the right-of-way relocation.

Manuel Ruiz, of 236 Pipeline Road, Elizabethtown, KY, provided testimony and answered questions from the board members and staff. Mr. Ruiz stated that he was hoping to move into the house soon and unsure on how to get in touch with all the other property owners.

Director King announced that the next meeting would be March 5, 2026 at 5:00 p.m. in the same meeting room.

At 5:55 Chairman Krausman called for consideration and action on the fourth item on the agenda, the **Minutes for the meeting held on January 8, 2026**. Secretary Steck made
